

DOWNTOWN DEMONSTRATION PROJECT

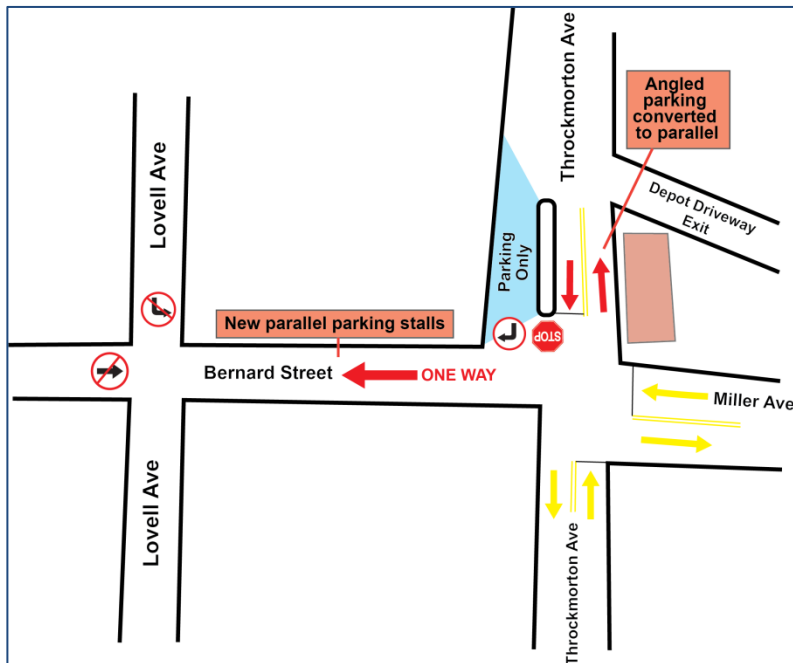

The City will be testing temporary traffic changes at two intersections to evaluate their potential for improving safety. The demonstration will be in place from Monday, September 27 to Friday, October 22, 2021. Temporary signs and pavement markings will be placed to guide motorists, pedestrians, and bicyclists. Following the trial and receipt of feedback the effectiveness will be evaluated for potential permanent installation as part of future projects.

Please visit the project website at bit.ly/MV-Downtown and provide your input by scanning this QR code:

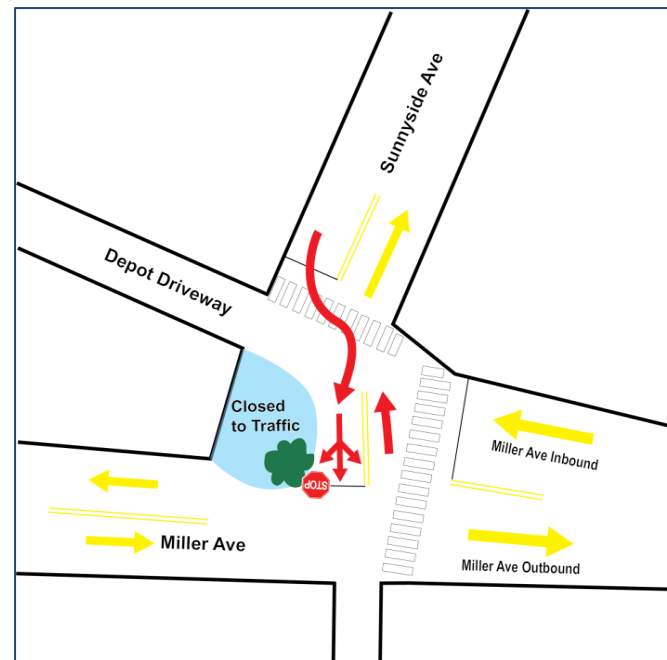

New Temporary Demonstration Traffic Patterns

Throckmorton Ave./Miller Ave./Bernard St.

Sunnyside Ave./Miller Ave./Miller Place
